SUR 170 Surgical Pharmacology Effective Term: Winter 2021

Course Cover

Division: Health Sciences

Department: Allied Health

Discipline: Surgical Technology

Course Number: 170

Org Number: 15320

Full Course Title: Surgical Pharmacology

Transcript Title: Surgical Pharmacology

Is Consultation with other department(s) required: No

Publish in the Following: College Catalog , Time Schedule , Web Page

Reason for Submission: Course Change

Change Information:

Consultation with all departments affected by this course is required.

Course description

Outcomes/Assessment

Rationale: SUR 170 went back online in 2019 after being offline since 2016.

Proposed Start Semester: Winter 2021

Course Description: In this course, students will define anesthesia and be introduced to the duties and roles performed by the operating room (OR) team during drug administration. Students will learn to identify the actions, uses, side effects, contraindications and administration of drugs and anesthetic agents in the care of the surgical patients. Safe practices and sterile techniques used in anesthesia procedures will be emphasized. Students will be exposed to anesthesia equipment, supplies, terminology and medications used in surgery.

Course Credit Hours

Variable hours: No

Credits: 2

Lecture Hours: Instructor: 30 Student: 30

Lab: Instructor: 0 Student: 0

Clinical: Instructor: 0 Student: 0

Total Contact Hours: Instructor: 30 Student: 30

Repeatable for Credit: NO

Grading Methods: Letter Grades

Audit

Are lectures, labs, or clinicals offered as separate sections?: NO (same sections)

College-Level Reading and Writing

College-level Reading & Writing

College-Level Math

Requisites

Prerequisite

Admission to Surgical Technology program

General Education

Proposed For:

Student Learning Outcomes

1. Demonstrate the procedure for identifying a drug or solution on the sterile field.

Assessment 1

Assessment Tool: Medication prep exercise

Assessment Date: Fall 2020

Assessment Cycle: Every Three Years

Course section(s)/other population: All sections

Number students to be assessed: All students

How the assessment will be scored: Departmental answer key

Standard of success to be used for this assessment: 80% of students will score 80% or higher on the outcome-related questions.

Who will score and analyze the data: Departmental faculty

2. Assess the different methods of drug administration and anesthetic agents.

Assessment 1

Assessment Tool: Outcome-related multiple-choice exam questions

Assessment Date: Fall 2020

Assessment Cycle: Every Three Years

Course section(s)/other population: All sections

Number students to be assessed: All students

How the assessment will be scored: Answer key

Standard of success to be used for this assessment: 80% of students will score 75% or higher on the outcome-related questions.

Who will score and analyze the data: Departmental faculty

3. Identify the action, uses, side effects and contradictions of drugs.

Assessment 1

Assessment Tool: Outcome-related multiple-choice exam questions

Assessment Date: Fall 2020

Assessment Cycle: Every Three Years

Course section(s)/other population: All sections

Number students to be assessed: All students

How the assessment will be scored: Answer key

Standard of success to be used for this assessment: 80% of students will score 75% or higher on the outcome-related questions.

Who will score and analyze the data: Departmental faculty

Course Objectives

1. Demonstrate care and handling of medications and solutions.
2. Compare and contrast methods, agents, and techniques of anesthesia administration and preparation.
3. Identify preoperative medications used in the care of the surgical patient.
4. Identify basic drug classifications.
5. Identify concepts of drug administration, assessment used to determine anesthesia choice, pharmacology math and medication measurements.
6. Identify drug categories, general and local anesthesia and alternative anesthesia methods.
7. Discuss pre-operative, intra-operative and post-operative anesthesia agents.
8. Discuss the assessments used to determine anesthesia choice for surgical intervention.
9. Analyze complications of anesthesia.
